72nd Anniversary

mildura fielddays

Friday 19th May 9am - 5pm
Saturday 20th May 9am - 4pm
Mildura Racecourse,
53 Racecourse Road,
Nichols Point
www.mildurafielddays.com.au

Mildura Field Days welcomes our media partners:

The Organising Committee wishes to acknowledge the following for their support:

- The Volunteers who tirelessly manage and organise the Mildura Field Days.
- Ongoing and new exhibitors, without whose presence and support the Field Days would not be the great event that it is each year.

Proud Member of

AAFDA
 Association of Agricultural Field Days of Australasia

www.aafda.com.au

Welcome to the 2023 *Mildura Field Days!*

This year will be our 72nd Mildura Field Days, we are very excited to bring two massive days for exhibitors, sponsors and the public. This is an event that brings our community together, you can bring the whole family to enjoy a great day or even two! There will be so much to see and do. Entertainment for all and a great array of fun filled activities for kids of all ages, and let's not forget plenty of delicious food options for your culinary delight.

Iconic events such as the Mildura Field Days are about farmers, business, families and great fun and chance to celebrate the terrific lifestyle of living in a regional area. Visitors will see the latest in

leisure products for fun on and off the farm. There are great new ideas, industry developments and products for all.

This is a big win for the economic prosperity of the region as the event brings many

exhibitors and visitors from outside the district, giving us the opportunity to show what a great place Mildura has to offer.

It is important to say a special thanks to our media partners, WIN TV, River 1467 for their fabulous support.

Huge thanks must also go to Dried Fruits Australia, who established and developed the event and whom continue to support us. Thanks also to long-time supporters, Haeusler's for their ongoing attendance and sponsorship of the event.

And lastly, thank you to our dedicated volunteers, our committee and the Mildura Racing Club Team and to our exhibitors, all of whom without we wouldn't have an event. It could not have been done without all of these extraordinary people.

Let's Have a Field Day.

Jo Rodda
Mildura Field Days
Coordinator

The Field Days are about bringing the community together, it is about families having time out, time off and coming together with the whole family to enjoy a day out and to share the best of horticulture and the broader community with loads of free activities and entertainment. It is a place to keep up with the latest in new technology and any new farming concepts.

It is always great to be able to come together and enjoy learning and experiencing all the exhibitors have to offer. The committee

Mildura Field Days Committee: Brendan Cockfield, Allan Lyell, Jo Rodda, David Lyons & Daryn Gardner

thanks all of the exhibitors, volunteers and attendee's for helping us to make the Mildura Field Days the great

community event it is. We hope you find that special deal, or come away with a new idea or

opportunity and enjoy all of the free entertainment and activities at this year's event.

TO WIN THE

*Major
Prizes*

Major Prize - John Deere Lawn Tractor
Assistance is available at the Site Office. Children
can also enter to win a John Deere Prize Pack and
don't forget to scan to win \$1000 worth of fuel.

The 2023 Mildura Field Days at a glance...

WHEN: Friday 19th May & Saturday 20th May

WHERE: Mildura Racing Club, 53 Racecourse Road, (off Cowra Ave) Nichols Point.

SPECIAL NOTE: NO DOGS or other pets please – the crocodiles may eat them.

CAR PARKING: The main carpark is located in the centre of the racing track, with disabled parking at the main gate. Follow the signs and the directions of our helpful parking attendants.

ENTRY PRICES: \$10 for adults, \$5 for Aged Pensioners and free for students and children (under 18).

CATERING: A range of catering options are available on site including gluten free and vegetarian fare.

WIN: Patrons will receive a free entry ticket into the gate prize of a John Deere lawn tractor from our friends at Haeusler's and for \$1,000 worth of fuel.

THE KIDS WILL LOVE: Being entertained by the fabulous Fizzic Science Shows, Black Snake Productions wildlife demonstrations, **Get Your Groove On**, the **Future Farmers Walk**, **free face painting**, the huge children's play area, Blairs Balloons, the EnviroEDU Wildlife Displays, pony rides & lots more.

HEAVY VEHICLE FORUM: Community RoadSafe Mildura Inc will be hosting the Heavy Vehicle Forum featuring guest speakers and many activities throughout the day.

ENTERTAINMENT FOR ALL: A highlight of the 2023 Mildura Field Days will be the entertainment on the Dried Fruits Australia Stage. Located in the food court, be sure not to miss it.

Favourites at the Field Day are the Mallee Sunset Ute Club display and competition and the Tractor Restoration and Appreciation Club of Sunraysia (TRACS) vintage machinery display.

Fizzics Science Demonstrations will be a crowd pleaser with

their hands on science and liquid nitrogen shows, as will the Victoria Police highway patrol vehicles.

Mildura Field Days are proud supporters of local charity C.H.A.I.L.I.S. (Children Having An Illness Living In Sunraysia). C.H.A.I.L.I.S. will be collecting donations at the gates and you are invited join us in supporting this very worthwhile charity that supports local families.

FRIDAY 19th MAY
12.30PM – Opening ceremony

Kids Entertainment

AS always the Mildura Field Days is a family fun filled event! Especially for the kids we have science activities that kids will love, including Hands on Science, Slime, Sherbet & Bubbles and the very popular Liquid Nitrogen Show.

Black Snake Productions are a favourite with the kids with their snake safety demonstrations, as is the free face painting and children's play area.

The kids will have hours of fun and fill their goodie bags as they visit the stalls along the Future Farmers Trail.

There will be free entertainment on the main stage including the very popular kids show, Get Your Groove On and for the grown-ups, Old Dog's are guaranteed to entertain.

Feathers, Fur and Scales

Over the last 17 years Black Snake Productions has been providing fun and interactive wildlife presentations and displays using their incredible diverse array of animals at schools, shopping centres, festivals, field days, country shows and corporate events across Australia.

This year Mildura Field Days will host the wildlife spectacle with founder of Black Snake Productions, Michael Alexander, bringing everything from birds of prey, mammals, snakes and even a crocodile to not only educate, but to also entertain.

Committed to the conservation of Australian wildlife, his

passion for wildlife developed as a child and he has spent many years working in the field which include working for the Australian Reptile Park as a traveling wildlife educator and then on to Melbourne zoo as a zoo keeper.

Michael said that his goal is to bring these amazing animals to you and share my passion for Australasia wildlife and to raise awareness to the plight of so many of them.

"We live in the lucky country and have some of the most diverse and unique flora and fauna found anywhere in the world, through Black Snake Productions you will get to meet

some of these amazing animals up close!"

Black Snake Productions has a private zoo which is home to almost 300 native animals allowing for an incredible wildlife diversity in the presentations. It is not just displaying and educating about wildlife, they also have a focus

on some unique breeding programs such as the elusive tiger quolls, magical masked owls, noisy growling grass frogs and beautiful painted turtles.

Black Snake Productions will once again be entertaining audiences at the Mildura Field Days. Check out the What's On for Show times.

React – Providing Quality at an Affordable Price

React International are a proudly Australian company and have many years of experience in providing equipment for farming and quarrying. They have a deep understanding of the demands in these sectors and the products they supply have been sourced with these requirements in mind.

The company have identified the need for high-quality machinery across Australia at an affordable

price. Directly importing their machinery to Adelaide, South Australia all products are made from quality components. The React range of equipment is designed to provide reliable, durable and affordable options for people on the land. Safety is also at the top of the priority list with all equipment meeting Australian Safety Standards to ensure the safety of operators.

Skid Steers, wheel loaders, and forklifts as well as accessories and attachments for their entire range give maximum flexibility to the machinery on offer. They even have a range of weigh bridges available.

Ian Evans, CEO of React, was formerly involved in broad acre agriculture and leads an experienced team of sales

and service professionals that offer expert advice to provide the right machine to suit each individual customer's needs. In his experience on the land he

acknowledges the need for affordable earthmoving machinery in the agricultural industry.

A strong range of wheel loaders is available with choices varying from six ton to 20 ton providing customers with a machine for every purpose. Powered by Cummins engines these

machines are backed up by quality service from Cummins Australia. Luxury cabs come complete with tinted glass, air-conditioning and comfortable seating. There is also a quick hitch system which allows the convenient use of a range of attachments, from stone buckets and stick rakes, to lifting jibs and posthole diggers.

Crime Stoppers

Over 30 years after its initial launch in 1987 Crime Stoppers Australia is going strong as an independent not-for-profit registered charity representing the collective eight Crime Stopper organisations operating in every state and territory of Australia.

The organisation is committed to achieving a safe, empowered and engaged community working hard to provide people with an opportunity to share information about unsolved crimes and suspicious activity.

They work closely with the police, media and the community to help solve, reduce and prevent crime by collecting information and passing on

those details to police and other law enforcement agencies to help keep all of our communities and families safe.

Crime Stoppers Victoria was the pioneering organisation in Australia when the program was started by Victoria Police. It was established following a Churchill Fellowship report by Geoff Wilkinson, the then director of media for Victoria Police. He had painstakingly reviewed existing programs in America and Britain for enlisting the community to assist in helping to solve crimes. He recommended that Victoria Police implement a program involving the police, media and the public working together.

Since its inception, up until June 2022, they have received over 1.33 million tips from the community, resulting in over 27,600 arrests and the recovery of more than \$406 million worth of drugs, property and cash.

Operating on the concept of anonymously reporting crime or suspected crime the community-based initiative encourages members of the public to provide information on unsolved crimes, wanted people and people they know are involved in criminal activity.

As a community based organisation and not-for-profit, Crime Stoppers Victoria depends on corporate partnerships, government funding, and donations to operate.

If you have information that may assist the police don't hesitate to call Crime Stoppers on 1800 333 000.

Your official guide to events in the Mildura region

Bill Drew's BBB *an Outback Success*

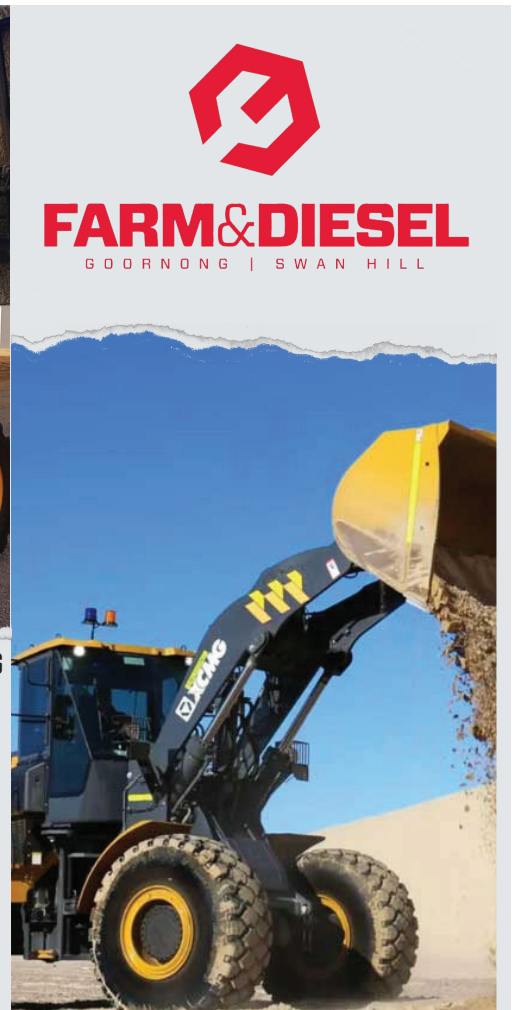

Bill Drew's BBB Rural & Outback Clothing has been in business for 39 Years, they were established in 1984. It all started when the two Bills, a father and son team, were at an auction where they came away with 1,000 pairs of jeans.

Named after Bill senior, Bill Junior, and baby Billy, BBB Rural and Outback clothing began travelling around selling farm to farm. Eventually they then extended the business, hiring country town halls and holding sales that aligned with picnic race meetings, field days and other popular bush events.

Manufacturing their product in Australia the company has now changed hands to the youngest

of the B's after the untimely passing of father Bill in 2020. Young Bill, along with his family including a new baby Billy are to continuing the legacy of manufacturing Australian clothing from Australian fabric as long as they can. Recently moving to a new factory in Dublin SA, Bill and his friendly team are only too pleased to assist you with quality Australian made clothing.

Like his father, Bill Drew still uses a mobile showroom trailer to showcase his range of BBB Clothing, including stretch denim jeans and work shirts taking his product directly to the people of rural and outback areas of Australia.

♪ GET YOUR ♪
GROOVE ON

A woman wearing a wide-brimmed straw hat, a blue denim shirt, and a polka-dot scarf is standing in a paddock. She is smiling and talking on a mobile phone. In the background, there are several black cattle grazing in a field with trees under a clear blue sky.

**Better
coverage
in more
places.**

When she's out in the paddock with her cattle, Jane needs to know she can still make a call. That's why she has a Telstra GO Repeater installed at her property and in her ute, maximising her coverage and giving her greater peace of mind through a more reliable connection.

With fewer missed calls and drop-outs, plus better battery life on her phone, Jane is able to feel more connected to her community and closer to those who matter most.

 Telstra GO Repeater

Tuatara Go Green with new ATV

The move towards electric vehicles has now come to the farm. Tuatara is pleased to announce the release of the Tuatara 1500E, Australia's only 108 volt lithium powered ATV. The tuff all steel construction designed in New Zealand can carry a payload of 550kg in its large 1600 x 1390 x 300 rear carry tray with fold down sides and electric tipping.

If running costs or environmental factors are important to you and your company, then this electric ATV is for you. There have been no compromises on design, this Lithium iron, electric powered 15kw/35nm rated, (30kw/130nm peak), water

cooled, electric motor will exceed all expectations.

A maximum speed of 60km/h and an incredible range of 100km is available with the standard 13kWh battery which only requires around a three hour charge time. If you need more range this can be easily extended to 200km just by changing to the 26kWh battery.

The powerful, quiet Tuatara electric motor produces zero emissions and costs very little to run per battery charge. When it comes to operation and safety there have been no compromises, the Tuatara 1500E has electronic power

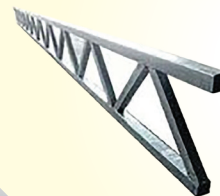

steering, power assisted disc brakes all round and independent suspension. Service costs are reduced as well, with no combustion engine requiring servicing.

A quiet running and odour free vehicle with no emissions there is no shortage of features. Lights are all LED units which

includes a roof LED Bar light and fog lights and even a blue tooth AM/FM radio included. There is an electronic winch, electronically engaged four wheel drive and low/high range selection.

Clean up your waterways – *Aquatic Weed Control*

Aquatic weeds cause problems by blocking the flow of water in irrigation channels pipes and dams. Weeds reduce delivery capacity, clog pumps and prevent us from providing an efficient service to our customers. Mag H (Acrolein) is the most effective way to deal with weeds growing in supply channels, dams and pipelines.

What is Acrolein? Acrolein is a contact herbicide used to control submersed and floating weeds, as well as algae, in irrigation channels dams and pipelines. Acrolein is a restricted chemical product, used extensively worldwide to control aquatic weeds. Acrolein is the only herbicide approved by the Australian Pesticides and Veterinary Medicines Authority (APVMA) to treat aquatic weeds.

BEFORE

AFTER

How Does Acrolein Work?

Acrolein is the active ingredient in Magnacide H. A general biocide that attacks and alters the cell structure of plants algae's and Bio organisms reliant on dissolved oxygen in water. Acrolein treatment is used for submersed aquatic weeds Algae's and Bio organisms in channels, dams and pipelines. It is toxic to

fish and crustaceans who also take dissolved oxygen from water through their gill-based respiratory system.

Is it safe to use treated water for irrigation? Yes, it is safe to use the water for irrigation.

Do other organisations use Acrolein? Yes, Acrolein is used extensively in Australia and other countries to control

submersed aquatic weeds Algae's and Bio organisms in channels, dams and pipelines.

Visit our information stall at the Mildura Field Days and talk to our team about the Mallee Wind Farm Project

The Mallee Wind Farm is a proposed renewable energy project of wind turbines and a battery energy storage system, located 16km north-east of Buronga, NSW, 23km from Mildura

Overview of the Mallee Wind Farm project:

- Up to 1 gigawatt generation capacity
- Up to 150 wind turbine generators
- Powering ~450,000 houses per year
- Offsetting ~2 million tonnes of CO₂ annually
- Battery storage up to 350 megawatts
- ~500 construction jobs

Fizzics Education

What is Fizzics?

It is a fun and interactive way to present science to people of all ages using workshops, shows & professional development programs. Putting the Fizz in psychics. Using slime, fire, liquid nitrogen and Lego® robots the workshops are designed to introduce science in a fun and hands on way to children, and for that matter adults, of all ages.

Science Teacher and former CSIRO educator, Ben Newsome, founded Fizzics Education in 2004 to deliver science education across Australia and beyond. Since its inception they have reached over three million children.

At this year's field days there will be a focus on liquid nitrogen and the science of toys. See how the rapid heating and cooling of liquids, solids and gases effect everyday items. The aim of the

Fizzics program is to get children excited by science. It is an opportunity for them to see that it isn't boring and difficult. Using the journey of discovery instead of a lot of facts and figures to bring the subject alive.

The 30 minute shows are presented by highly educated and qualified scientists with all the experiments designed by experienced science teachers and communicators to make sure that the balance is right; cool experiments that are not normally see at school in the classroom.

Community RoadSafe Mildura

Mildura Field Days are excited to be chosen as the venue for the local regions Heavy Vehicle Road Safety Forum, once again, for 2023.

Community RoadSafe Mildura Inc is funded by VicRoads Community Road Safety Grants and are pleased to be hosting the annual forum. The event is a cross border partnership which brings the latest safety updates and attracts up to 100 major

transport network industry members.

The organisation aims to make roads and road users safer in and around Mildura it is governed by a Committee made up of community and transport members which includes Mildura Rural City Council, Victoria Police, members of SunBug (Bicycle Users Group), Motorcycle riding Clubs, and heavy transport.

Industry members along with the general public are invited to attend the free forum and to participate in the many activities that will be on offer. These will include load distribution simulations, and a heavy vehicle on display for a blind spot simulation giving other road users an opportunity to experience what heavy vehicle drivers can (and can't) see from the driver's seat.

Guest speakers from the National Heavy Vehicles Regulator, Transport NSW, Ambulance Victoria and Police will appear throughout the day.

There will also be giveaways of wristbands and there's even a \$100 fuel voucher and a \$50 anaconda voucher up for grabs in their fatigue fighter draw.

SecureEnergy

SecureEnergy has been contracted by Transgrid to build EnergyConnect, a new 700km transmission line extending from Wagga Wagga NSW to the South Australian border. This backbone infrastructure will connect customers with more renewable energy enabling a further 4950MW of generation capacity, save NSW customers \$180 million a year and create 1,500 new construction jobs

in regional NSW. Construction of EnergyConnect is underway in various locations across the project area.

The \$1.8 billion EnergyConnect project will enable the sharing of electricity between NSW, South Australia, and Victoria for the first time, integrate renewable energy into the grid, and help Australia achieve its emissions reduction targets.

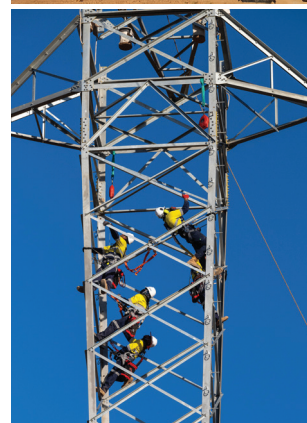

The project includes:

- The construction of two new 330kV transmission lines and one new 500kV transmission line.
- A rebuild of an existing 220kV transmission line at Red Cliffs, Victoria.
- An expansion and upgrade of the existing Buronga substation

- A new substation known as Dinawan, located between Jerilderie and Coleambally.
- An expansion of the existing Wagga Wagga substation.

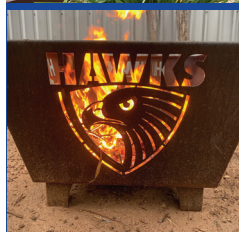

EnergyConnect, once completed, will be Australia's largest interconnector in the Australian National Electricity Market (NEM).

The project is contributing \$4 billion in net economic benefits, providing a major economic injection in local communities along the project alignment such as Mildura and Wentworth. SecureEnergy has so far invested more than \$30 million with more than 75 local businesses who are supplying goods and services to the project. Spending in local communities, awarding local procurement packages and buying locally is a key priority.

Award winning for Manufacturer, Export & Business of the year.
High Pressure Blowers, Airseeding Components, Stirring Fans, Steelart and Firepits.
